

Colour King® Evergreen

KEY POINTS

- Increases soil carbon levels for energy, water and nutrient holding capacity
- Increases the ability for plants & turf to resist pest and disease attack
- Greater biological activity in the soil promotes availability of both target and other tied-up nutrients in the soil
- Carbon King Urea™ secures Nitrogen within the soil, reducing volatilization and leaching by up to 30 % of standard Urea
- Carbon King Urea™ increases energy, water and nutrient holding capacity
- *Improved soil health reduces input costs through efficiency.

STORAGE STABILITY

C-K-U unique coating increases product storage & stability.

TYPICAL ANALYSIS (w/w)

Nitrogen	24.84%	Copper	0.00mg/kg
Phosphorous	1.581%	Zinc	0.00mg/kg
Potassium	11.275%	Manganese	0.00mg/kg
Sulphur	4.950%	Iron	2.00%
Carbon	11.340%	Boron	0.00mg/kg
Calcium	2.871%	Molybdenum	0.00mg/kg
Magnesium	0.00%	Cobalt	0.00mg/kg
		Silica	1.769%

PRODUCT SPECIFICATIONS

Coated Slow Release 1-2mm

QUANTITY SIZES (PER 1000KG)

Loose Bulk • 1t Bulk Bags • 25kg Bags • 20kg Bags

Manufactured by FertPro Manufacturing Pty Ltd

Colour King[®] Evergreen

APPLICATION GUIDE

Application rates should be determined by soil analysis and applied in conjunction with a balanced nutrition program. The following rates are generalized for irrigated and dry land cropping, for intense horticulture these rates can be increased. Contact a qualified Fertpro consultant for assistance.

Best applied broadcast or direct drill, using horticultural spinner spreaders, belt spreaders or small walk behind applicators.

Application Rates : 4 kg /100 m²

Compatibility: Check with a Fertpro qualified consultant prior to blending this product with other fertilisers.

Note: This blend can be used to uniquely formulate a fertiliser to suit a specific need in any crop.

DISCLAIMER

FertPro Manufacturing Pty Ltd provides this information & application document as a guide and reference point for fertiliser application qualified professionals. This document needs to be supported by the means of soil tests and or leaf tests for a qualified professional to decide on application rate. FertPro Manufacturing P/L accept no responsibility or liability for the validity of testing, application of fertilizer or crop response as an outcome from information provided. It is the responsibility of each farming operation to keep our environment safe and clean for all generations. Use qualified advice, stringent planning and ownership of your decision before acting on any information provided.
