

# The first liquid thiram

Flowable TMTD is a contact fungicide. Flowable TMTD works by forming a protective barrier around the plant tissue (i.e. chemical barrier between the fungus and the plant).

Flowable TMTD is recommended to be applied every 7-14 days depending on mowing frequency, play, sunlight, watering and general stress on the plant. For pythium apply every 7 days.

<b>Product Name:</b>	<b>Flowable TMTD®</b>
<b>Product Type:</b>	<b>Fungicide</b>
<b>Active Constituent:</b>	<b>600g/L Thiram</b>
<b>Resistance group:</b>	<b>M3</b>
