

Long Paddock

IRON CARB - PLUS

**AN ALL NATURAL CARBON BASED
LIQUID FISH CONCENTRATE + 7% CHELATED IRON + KELP**

PRODUCT BENEFITS

IRON CHELATE

- Maximises photosynthesis production
- Chelated Iron delivers consistency in the manufacture of chlorophyll
- Promotes beautiful even dark green colour

FISH – EUROPEAN CARP

- The penetrant action of the Carp's Omega 3 Oils maximises nutrient uptake
- Organic low sodium NPK + TE provide immediate relief where nutrient imbalances are affecting plant health
- The unique processing of the WHOLE Carp (Not Ocean Fish Scraps) optimises the delivery of Natural Minerals, Vitamins, Omega 3 Oils, Proteins and Amino Acids into the plant
- Delivers sugars that promote strong Brix Levels that in turn improve the plants natural immune systems

CARBON – HUMATES

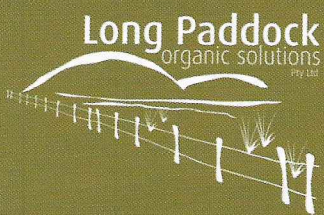

- Increases nutrient uptake via improved cation exchange capacity
- Helps to Chelate and mobilise nutrient absorption within the plant
- Aids in the natural buffering of both pH extremes and sodium extremes
- Improves moisture holding capacity

KELP

- Plants have a greater resistance to disease and pests via stronger Brix Levels
- Increases and stabilises chlorophyll in plants, which results in darker & greener leaves and increased sugar content in plants
- Accelerates plant vigor and growth
- Increases resistance to heat, drought and frost stress

Made from whole European Carp

Long Paddock

IRON CARB - PLUS

AN ALL NATURAL CARBON BASED LIQUID FISH CONCENTRATE + 7% CHELATED IRON + KELP

TYPICAL ANALYSIS %

IRON (Fe)	7.0
NITROGEN (N)	1.2
PHOSPHOROUS (P)	0.30
POTASSIUM (K)	0.30
SULPHUR (S)	4.5
KELP W/V	10.0
ORGANIC CARBON	5.0
pH	2.3

TRACE ELEMENTS - PPM

CALCIUM
MAGNESIUM
SODIUM
COPPER
ZINC
MANGANESE
COBALT
MOLYBDENUM
BORON

APPLICATION RATES

AREA	RATE	WATER RATE
Green (Foliar)	Monthly or as required @ 5L/ Ha	400L - 600L/ Ha
Tees (Foliar)	Monthly or as required @ 5L/ Ha	400L - 600L/ Ha
Fairways Sports Fields Amenity Turf (Foliar)	Summer - Monthly @ 5L/ Ha Winter - Monthly/ Bi Monthly apply to cool season grasses @ 5L/ Ha	400L - 600L/ Ha
Landscape (Foliar)	Promote growth and flowering @ 3L/ Ha or 30mls/ 100m2	400L - 600L/ Ha 4L - 6L/100m2

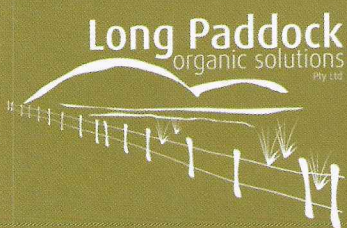

ENVIRONMENTAL STEWARDSHIP

We at Long Paddock Organic Solution as well as our good friends at Charlie Carp would like to thank ALL our professional end users for supporting our efforts in protecting our precious and fragile inland waterways.
