

Long Paddock – Renovator Pellets

Page 1 of 4

SAFETY DATA SHEET

Section 1 - Identification of the Preparation and the Company

Product Name: **Long Paddock – Renovator Pellets**
Other Names: None

This product is not classified as hazardous according to the criteria of Safe Work Australia.
Not classified as a Dangerous Good according to the Australian Dangerous Goods Code (ADG).

Uses: Fertiliser.

Charlie Carp Ltd

Address

Lot 2, Saleyards Road
Postal: PO Box 48 DENILQUIN NSW 2710

Poisons Information Centre. Phone (e.g. Australia 13 11 26; New Zealand 0800 764 766).

Section 2 – Hazards Identification

Not Hazardous

Hazard Statements

NONE, NOT HAZARDOUS

Prevention

P261: Avoid breathing dusts

P264: Wash hands thoroughly after handling

Response

P301 + P310: IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician.

P302 + P352 IF ON SKIN: Wash with plenty of soap and water

P305 + P313 + P351 + P337 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention

P332 + P313: If skin irritation occurs: Get medical advice/attention

P308 + P313 If exposed or concerned: Get medical advice/attention

Storage

P403 + P235 Store in a well-ventilated place. Keep cool

Disposal

P501 Dispose of contents/container to approved landfill.

Section 3 - Composition/Information on Ingredients

Ingredient(s)

Hydrolysed whole fish and nutrients.

Contains non-hazardous ingredients or ingredients that are below hazardous concentrations

CAS-number

Not available

%wt

Section 4 – First Aid Measures

Ingestion:

NEVER GIVE AN UNCONSCIOUS PERSON ANYTHING TO DRINK NOR ATTEMPT TO INDUCE VOMITING. If person is conscious, rinse mouth out with water ensuring that mouthwash is not swallowed. Give about 250mL (2 glasses) of water to drink. For advice, contact a Poisons Information Centre. (Phone e.g. Australia 131126; New Zealand 0800 764 766) or a doctor.

Long Paddock – Renovator Pellets

Inhalation:

First aid is unlikely to be required as a result of exposures during normal use. .

Eye Contact:

Hold eyelids open and rinse the eye continuously with a gentle stream of clean running water for at least fifteen minutes. Seek medical attention if any irritation persists.

Skin Contact:

Gently brush off excess particles. Remove contaminated clothing and wash thoroughly with soap and water. Use water alone, if soap is unavailable. Apply a moisturising hand cream, if available. Seek medical attention if any soreness or inflammation of the skin persists or develops later. Launder affected clothing before re-use.

Additional Information:

First Aid Facilities: None specified.

Advice to Doctor: Treat symptomatically.

Entry Route(s): Inhalation of dusts or ingestion.

Section 5 – Fire Fighting Measures

SUITABLE EXTINGUISHING MEDIA: Extinguish using whatever is suitable for the primary cause of the fire. Foam, dry chemical powder (bicarbonate or ammonium phosphate based) or carbon dioxide are all suitable.

HAZARDS FROM COMBUSTION PRODUCTS: May evolve carbon monoxide, carbon dioxide and traces of completely burned carbon products if heated strongly in a fire situation.

PROTECTIVE EQUIPMENT: Fire fighters should wear self-contained breathing apparatus.

Additional Information:

Product is combustible.

Section 6 – Accidental Release Measures

EMERGENCY PROCEDURES: Wear protective equipment as specified for handling

SPILLS: Sweep up and reuse or dispose or to approved landfill. Small quantities may be disposed with general waste.

Section 7 – Handling and Storage

SAFE HANDLING PRECAUTIONS: Avoid prolonged or repeated skin contact. Wear gloves to minimise skin contact: For Personal Protective Equipment (PPE), see Section 8.

SAFE STORAGE PRECAUTIONS: Keep away from direct sources of heat. No other special storage precautions required but product life will be maximised if it is stored out of direct sunlight in a cool well ventilated area.

INCOMPATIBILITIES: None.

Section 8 – Exposure Controls/Personal Protection

EXPOSURE STANDARDS: Exposure standards have not been allocated to this product or its ingredients.

Exposure standards represent airborne concentrations of individual chemical substances, which according to current knowledge, should neither impair the health nor cause undue discomfort to nearly all workers. Exposure standard may be a time-weighted average (TWA), a short-term exposure limit (STEL) or a peak level.

ENGINEERING CONTROLS:

There are no special ventilation requirements for foreseeable uses of this product.

PERSONAL PROTECTION:

For minor use, nitrile, neoprene, PVC or natural rubber gloves should be worn if necessary to prevent prolonged skin contact and safety glasses should be worn if there is any potential for eye contact. Respiratory protection is unlikely to be required for foreseeable uses of this product but if dust is being generated, wear a dust respirator.

WITHHOLDING PERIODS:

A 2-3 day withholding period is advised for Fruit and Vegetables and Animals on Pastures and associated Crops.

Section 9 – Physical and Chemical Properties

Appearance: Small brown pellets with a mild odour
Boiling Point: Not available, solid at normal temperatures
Melting Point: Not available, solid at normal temperatures
Vapour Pressure: Negligible
Vapour Density: No data available
Specific Gravity: No data available.
Solubility (Water): Soluble
Flash Point: None
Explosion Limits: None
% Volatiles: <1%
Ph: Not relevant

Section 10 – Stability and Reactivity

Stability: Stable
Hazardous Decomposition Products: May evolve carbon dioxide and traces of incompletely burned carbon products if heated strongly.
Hazardous polymerisation: Will not occur.
Incompatibilities: Strong oxidising agents.
Conditions to Avoid: As an organic product, shelf life will be prolonged if stored in a cool area.

Section 11 – Toxicological Information

Symptoms of Exposure:
ACUTE - Swallowed Considered to be practically non harmful by all exposure routes.
ACUTE – EYE: Dust may be slightly Irritating.
ACUTE – SKIN: Harmless unless in contact with broken skin, when irritation might occur.
ACUTE – INHALED: Inhalation is unlikely to be a hazard in normal use but if generated dust might be slightly irritating.
Chronic Health Effects
Chronic: No specific data is available for the product for chronic exposure symptoms.
Carcinogenicity: None of the ingredients in this product are listed as carcinogenic by Safe Work Australia, the International Agency for Research on Cancer (IARC), the National Institute for Occupational Safety and Health (NIOSH), the National Toxicology Program (NTP), or the Occupational Health and Safety Administration (OSHA).
Toxicological Information
Acute Toxicity Data:
No data available.

Section 12 – Ecological Information

As the product is a fertiliser, it is not expected to be harmful in soil. However, the product should not be allowed to enter drains or waterways as it may cause an excess of nutrients

Section 13 – Disposal Considerations

Small quantities may be disposed to general waste. Large quantities should be disposed to approved land fill. Rinsed containers may be disposed in general waste.

Long Paddock – Renovator Pellets

Section 14 – Transport Information

This product is not a dangerous good according to the Australian Code for the Transportation of Dangerous Goods by Road and Rail (ADG Code).

UN Number: None allocated
Proper shipping name: None allocated
DG Class: None allocated
HazChem code: None allocated
Packing group: None allocated

Section 15 – Regulatory Information

Product is not a scheduled poison according to the requirements of the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

All ingredients are listed on the Australian Inventory of Chemical Substances (AICS).
